

## ***Habitat For Humanity***

Habitat for Humanity of Medina County (HFHMC) was founded in April of 1991. Since our early beginnings we have worked diligently to provide adequate, affordable housing for Medina County residents in need. Partner Families put in many hours of sweat equity and then are able to buy their homes at cost. We also provide an interest-free mortgage to the Partner Families. Fifteen houses have been completed to date. Two more will be constructed in 2009.
