

CLOVERLEAF LOCAL SCHOOL DIST.  
8525 FRIENDSVILLE RD.  
LODI, OH 44254

PARENTAL NOTICE  
of  
Asbestos-containing Material  
Management Plan

July 1, 2011

During the winter of 1988-89, an asbestos-containing materials management plan was developed for the Cloverleaf Local Schools by a State of Ohio accredited asbestos management planner. The management planner, Monit-Air, inspected all of the District's buildings for asbestos-containing materials in accordance with the Asbestos Hazard Emergency Response Act (AHERA). Medico System, Inc. will be required to make re-inspections every three (3) years.

This notice, through our web page, is to let you know that Cloverleaf Local School District is in compliance with the AHERA regulations for asbestos-containing materials. AHERA regulations require the school District to notify the parents of the management plan and that it is available for public inspection and review at the offices of the Maintenance Department and at each school building during normal business hours. This plan is to be made available for inspection without cost within five (5) working days after receiving a request for inspection. Copies of the management plan are available at a reasonable cost from the District Board of Education office upon five (5) days written request.

Should you have any questions concerning the management plan or its availability, please contact Kenneth Fletcher at the maintenance office.

Sincerely,

Kenneth Fletcher  
Interim Dir. Of Building & Grounds
